THE FINISHING TOUCH

SEE ME, FEEL ME, TOUCH ME

Elegant and natural

Forbo's Furniture Linoleum, Desktop, is a natural surfacing material that delivers the finishing touch for all high end 3D furniture designs such as desks, chairs, stools, cabinets, doors and displays. The material is flexible and can be applied as a surface on all kinds of constructions. Furniture Linoleum is renowned for its elegance and durability, radiating high quality and finesse.

Warm and tactile character

Furniture Linoleum delivers a combination of a satin matte surface with a warm, fine texture creating interior furniture with a truly distinctive, genuinely individual look and feel that really is unlike any other surface material available. The natural character of Furniture Linoleum means that the material achieves a beautiful patina over time.

Color is the new black

Whilst the colorways of charcoal black and dark anthracite grey will always remain classic favourite amongst designers, Forbo's new Furniture Linoleum collection now offers a range of contemporary and modern colours that complement current design trends and interior styling features.

Hygienic and antistatic by nature

The all-natural composition and Forbo's special surface finish ensure that Furniture Linoleum is naturally antistatic. This gives it a key practical advantage in comparison with other furniture finishes because the surface actively resists the build-up of static charges. This helps to prevent dust or dirt from sticking to it and helps to ensure that the material remains unblemished, hygienic and clean.

Easy to apply

Flexible, organic shapes can be created by Furniture Linoleum as the material is naturally flexible, which makes it perfect for all kinds of furniture and interior furnishing requirements. Furniture Linoleum is supplied in a roll format and can be applied horizontally or vertically, as well as to curved surfaces. The material is also versatile enough to allow edge covers to be made to create a perfect finish.

Unique benefits for users

- tactile finish that is warm and comfortable
- matte surface
- natural material
- environmentally friendly choice
- no marks from fingerprints
- antistatic
- long lasting vibrant colorways
- pleasant to write on

Unique benefits for manufacturers

- flexible
- easy to apply
- suitable for many kinds of substrates
- processes like wood
- coatable
- manual and industrial installation possible

FEEL, TOUCH, LOVE

With our products we aim at creating a better quality indoor environment, one that gives pleasure to people to live and work in. In the case of Furniture Linoleum this is created through high quality furnishings that are hygienic and pleasant to touch and use. Furniture Linoleum, being a natural product that has very low emission helps to create a healthier environment where people can be happy and are good company.
